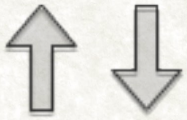
HUMANS ARE LAZY

& SOCIALIZATION IS HARD

“SOCIAL” APPS
DON’T SOLVE THE PROBLEM

SOLUTION
MAKE EVENTS EASY

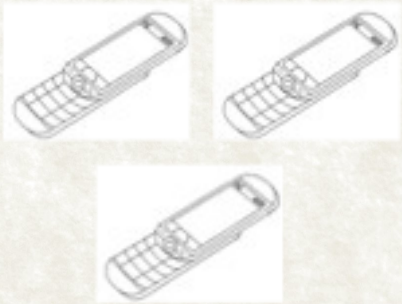
Existing Social Network Events



JSON
- Location
- Explicit Interests
- RSVPs
- New Events

JSON
- Event Data

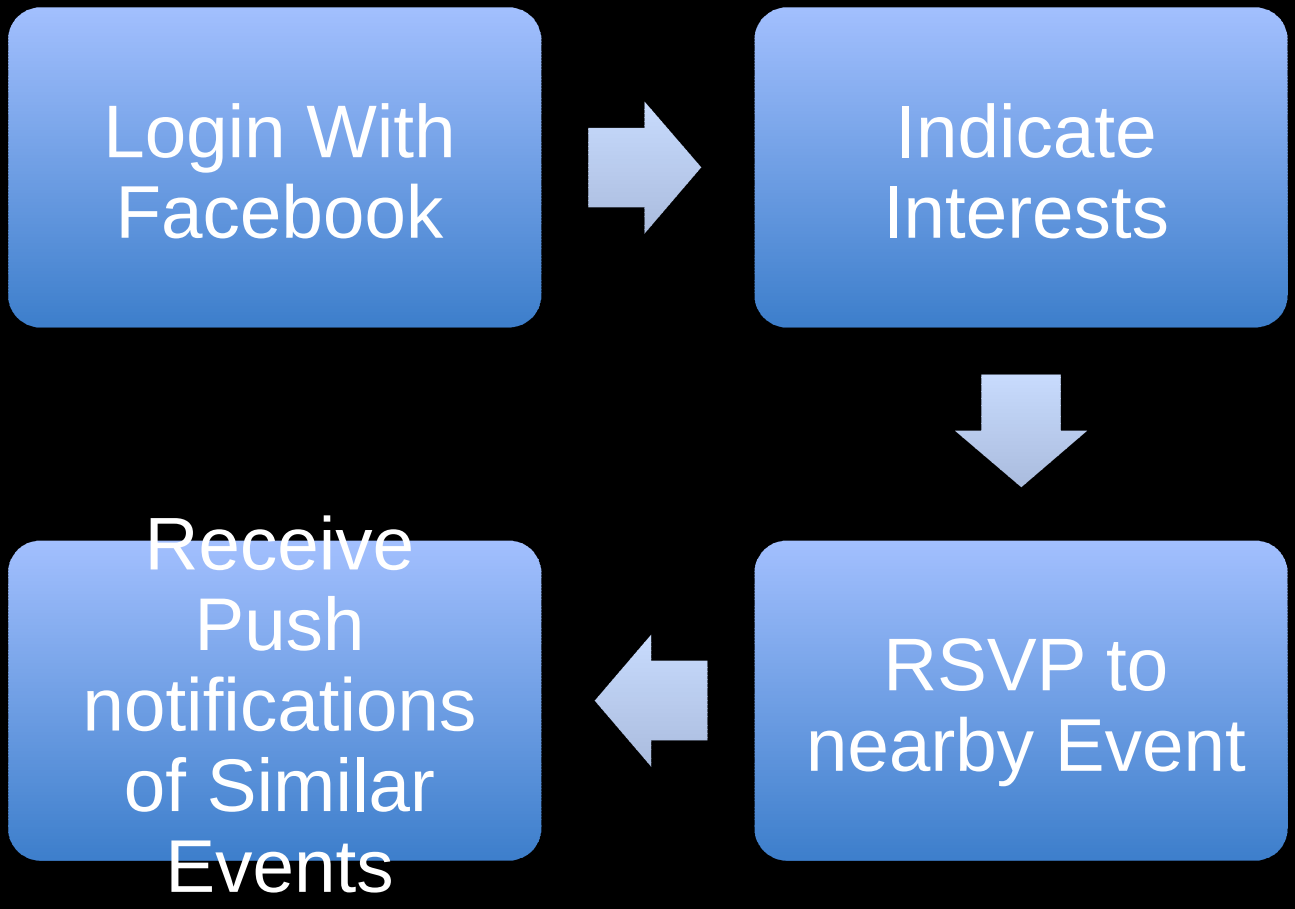
Android Client



WeGO Users
(Android Client)

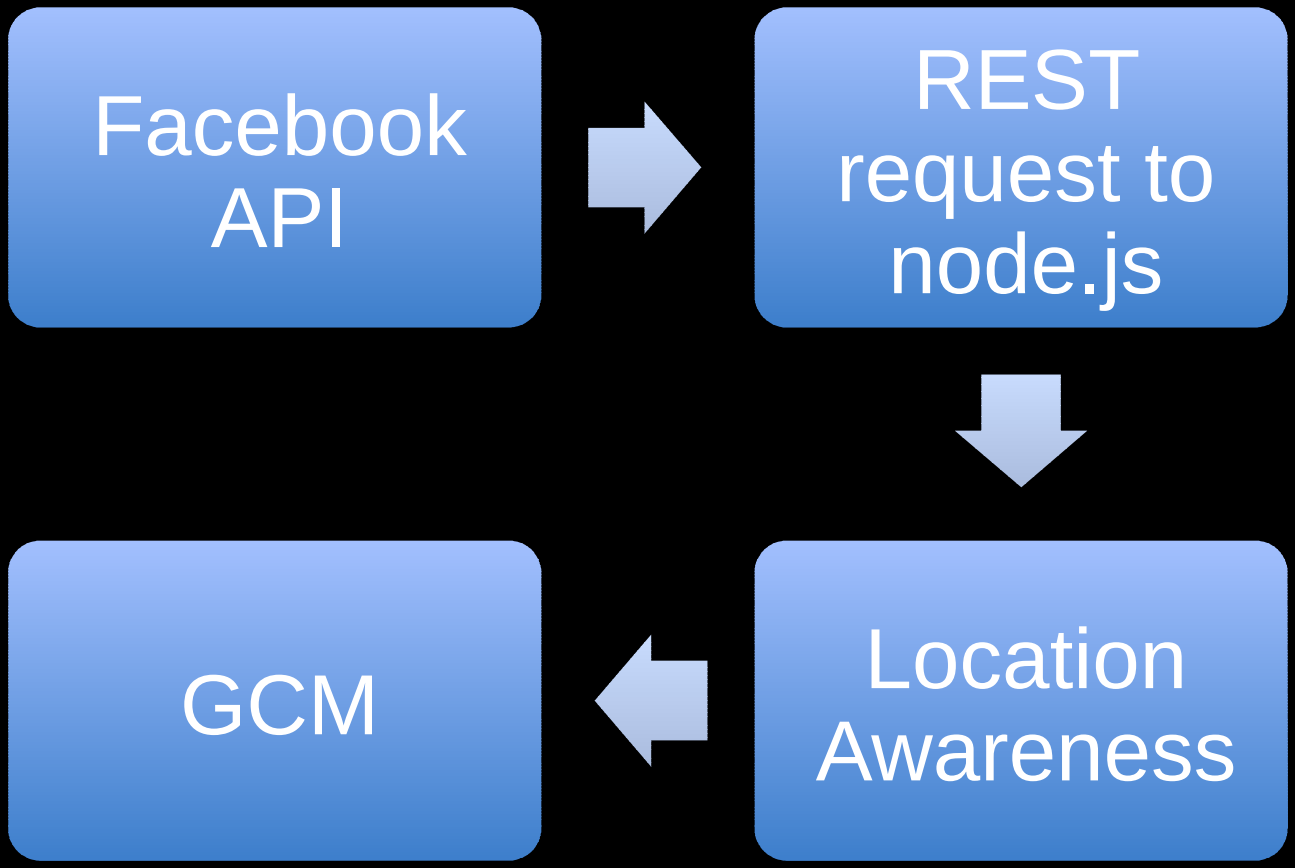
TECHNOLOGY STACK

- Android SDK
- Facebook Login
- GCM
- Node.js
- SQLite Database

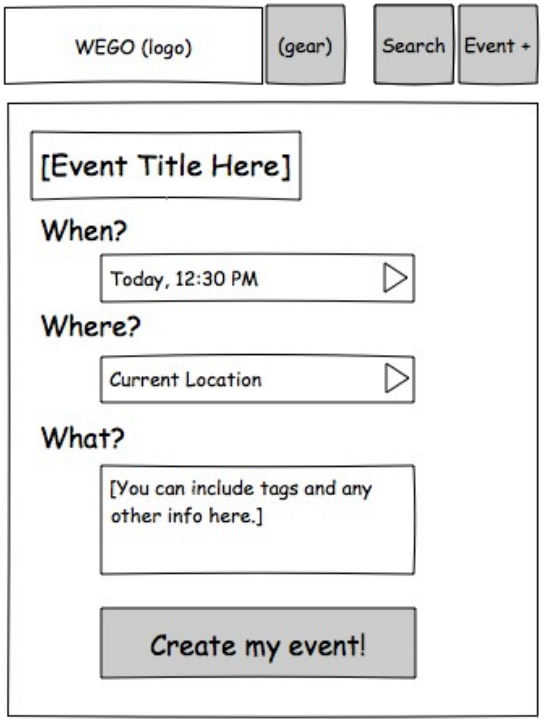


Login With Facebook
Indicate Interests
RSVP to nearby Event
Receive Push notifications of Similar Events

ANDROID API

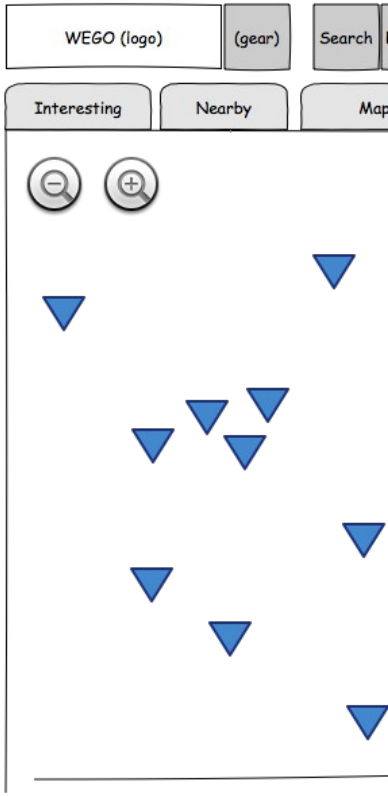


Facebook API
REST request to node.js
Location Awareness
GCM



View for new events. Very similar view for already-made events.

For searching and creating filters.



Map view for map events view
